The TSC will also name any potential alternates based on PAG Trials results and eligibility conditions outlined herein.

The TSC will be comprised of the RSC President, Vice President Speed and the RSC Secretary. At the 2019 Pan American Games there will be a maximum of 20 male and 20 female participants allowed to compete, where there will also be two positions reserved for males and two positions reserved for females of the host nation. Please refer to the PASO Qualification System referenced in Section A.

The 2019 Pan American Games Trials event is planned for late-May/early June 2019 with possible competition venues in Toronto and Montreal.

Alternates listed must be prepared to assume their position on the team on very short notice if a respective team member should have to withdraw from the team.

Once selected, RSC athletes will form part of the COC's Team Canada, and will be subject to any and all conditions of travel as outlined by the COC.

E. Qualification

Speed athletes will qualify for, and subsequently be named to the Pan American Games Team, by virtue of their placement at the specified Pan American Games Trials event, subject to meeting all other eligibility criteria.

Roller Sports Canada's Speed Committee will nominate a maximum of the top two overall male and female finishers from the 2019 RSC Pan American Games Trials to compete at the 2019 Pan American Games.

The ranking will be determined by way of cumulative points earned in sprint (200m, 500m) and distance (10km points) races. Points assigned for placement in each race will be weighted with the following calculation: 25% of points assigned for placement in each of the 200m & 500 finals and 50% of points assigned for placement in each 10km points races. The points will be totaled to determine the overall final rankings that are used for team selection. The points system used to determine the final ranking is located in Section 7 of the Rules for RSC Speed.

A participant's fastest 500-meter race in any of the competition's heats, qualification races, or quarter-final, semi-final, or final will serve as to break ties in points. In case there is a second need for a tie-break then a 500m skate off will be done between the 2 athletes.

In the event of inclement weather, a third day will be used to complete distances.

The overall objective is to race each distance twice, with the understanding that the safety of the competitors is a primary concern. Therefore, the weighting will remain the same and as many of the distances and times raced will be taken into consideration.

Two weeks prior to the competitions, registration and payment for the 2019 RSC Pan American Games Trials must be completed.

Women's alternate & Men's alternate

Should an alternate be needed due to the inability of one of the first-place athletes to attend the Games, the next skater in rank order will be named to the team.

All substitutions after June 26, 2019 are subject to PASO's Late Athlete Replacement Policy.

Alternates must comply with all aspects of team nomination and membership.

Automatic Selection

Automatic-selection of athletes to the team will only be considered if there are no other eligible athletes wishing to try out for the Team. Any potential automatic-selected athlete must comply with the criteria outlined in this document and demonstrate through past and/or current results that they would be competitive at the Pan American Games. The Team Selection Committee will make the final decision.

F. Appeals

RSC Policy #00-04, "Athlete's Right to Appeal" dated May 1, 2000 will apply should an RSC member wish to appeal any RSC decision.

If both parties are in agreement, the RSC Policy may be bypassed and the matter brought directly before the Sport Dispute Resolution Centre of Canada (SDRCC) who will then manage the appeal.
